

Getting Dressed for School

Please find attached a school uniform template to print off and decorate with your child. Hopefully this will get them excited about starting school and spark a conversation allowing them to ask any questions or express any concerns they may have. I would also highly recommend hanging your child's school uniform somewhere visible in their room so they become accustomed to seeing it on a daily basis. Equally, it would be beneficial for your child to try on their uniform at different points over the next few weeks so they get used to putting it on. This is a great opportunity to develop the ability to dress/undress themselves, something which they will need to do during PE.

Your child may wish to bring the finished product with them on their first day to be displayed in their classroom. If you do this please ensure full names are written on the back.
